All India Law Entrance Test was conducted on May 4, 2014 by National Law University-Delhi. There were total 150 questions and time given was 90 minutes for the same. However, the students felt that the paper was unnecessarily lengthy. The overall paper structure was similar to that of the last year's paper. The level of difficulty of the questions was moderate. The key to success in this paper is time management and accuracy.

The test comprised of 5 sections - Logical Reasoning, General English, Legal Aptitude, General Knowledge and Mathematics. Each question carried one mark and had no negative marks for wrong answers.

A detailed analysis of each section is given below:

### Logical Reasoning

This section could be rated as easy to moderate. The most difficult section of the paper was on the arrangement pattern. Also, the section was very lengthy and from an examinees' point of view, a lot of time could have been saved here.

A score of 20-23 out of 30 can be considered as a decent score.

Questions were from - word arrangement and series, blood relation, calendars, coding-decoding, syllogism, logical connectives, critical and inferential reasoning.

### General English

In this section, total of 30 questions were asked and the level of difficulty can be ranged between easy to moderate according to the examinees. There were around 10 sentence correction questions, 5 questions based on correct usage of preposition. Other questions were from - Synonyms, Antonyms, Idioms, Para Jumble, Cloze Test, and Reading Comprehension. Considering the length of this section, a score of around 25 could be easily achievable.

### Legal Aptitude

Legal Reasoning section closely mirrored the past two years' pattern. There was approximately a 50:50 break-up between Legal Reasoning and Legal Knowledge. In fact, many students from SmartPrep found the Legal section to be quite easy. The reasoning based questions were mainly from the law of torts and the law of crimes. Knowledge based question were mainly from Constitutional Law, including Fundamental Rights, Law Commissions, etc. A score of around 25 should be attainable.

### General Knowledge

This section had more of static GK and less of current affairs questions. The difficulty level of questions varied from moderate to difficult. There were bulk of questions from History, Economy and Politics. Some questions from International Organizations like UNO, UNESCO and EU, sports, awards, films and literature were also a part of the paper. Looking at the level of confidence of examinees in this section, a fairly achievable score could be 25 marks.

### Mathematics

There were around 10 questions in this section and the level of questions varied between moderate to difficult. Arithmetic was a major part of this section. 2 questions were from number system. Other questions ranged between averages, time and work, TSD, etc. A score of around 5-7 could be attainable.

### Overall Cut-off

Considering that the paper was time taking, we are assuming that this year's cut-off could soar somewhere around 100-105, that means that, anyone with a score of three figures should plan to spend time in the moot courts.

After all, it's a fight to make it into one of the prestigious university with around 80 seats in total and believe it or not, students who pursue law from

## Test Analysis AILET 2014 (NLU Delhi)
